CONTENTS

Volume 6, Issue Nos. 1-6

Issue Number 1

PUBLISHER'S NOTE	1
ENVIRONMENTALLY INDUCED CHANGES IN THE DIMENSIONS OF THE RAT CEREBRUM: A REPLICATION AND EXTENSION.....	
... <i>Roger N. Walsh, Robert A. Cummins, and Otto E. Budtz-Olsen</i>	3
INFANT STATE: RELATIONSHIP TO HEART RATE, BEHAVIORAL RESPONSE AND RESPONSE DECREMENT.....	
..... <i>Joseph J. Campos and Yvonne Brackbill</i>	9
MICE REARED WITH RATS: EFFECTS OF PRENATAL AND POSTNATAL MATERANAL ENVIRONMENTS UPON HYBRID OFFSPRING OF C57BL/10J AND SWISS ALBINO MICE.....	
... <i>Victor H. Denenberg, Richard E. Paschke, and M. X. Zarrow</i>	21
EFFECT OF PROTEIN-CALORIE MALNUTRITION ON THE DEVELOPMENT OF SOCIAL BEHAVIOR IN RATS.....	
..... <i>Slavka Franková</i>	33
PACIFIER-PRODUCED VISUAL BUFFERING IN HUMAN INFANTS.....	
..... <i>Jerome S. Bruner</i>	45
AN INVESTIGATION OF VARIOUS EGG-OPENING TECHNIQUES FOR USE IN AVIAN BEHAVIORAL EMBRYOLOGY.....	
... <i>Ronald W. Oppenheim, Hinda L. Levin, and Marshall S. Harth</i>	53
ALTERATIONS IN VISUAL EVOKED RESPONSES AND BEHAVIOR IN KITTENS REARED UNDER CONSTANT ILLUMINATION.....	
..... <i>Guenther H. Rose and Steven P. Gruenau</i>	69
THE EFFECTS OF SELECTIVE INTERRUPTION AND DEPRIVATION OF SLEEP IN THE HUMAN NEWBORN.....	
..... <i>Thomas F. Anders and Howard P. Roffwarg</i>	77
INFORMATION FOR CONTRIBUTORS ON REFERENCES.....	91

Issue Number 2

OBITUARY.....	95
AVOIDANCE CONDITIONING IN MICE AS A FUNCTION OF THEIR MOTHER'S TRAINING.. <i>Robert H. Ressler and Lowell T. Anderson</i>	97
AVOIDANCE CONDITIONING IN MICE AS A FUNCTION OF THEIR MOTHERS' EXPOSURE TO SHOCK.....	
..... <i>Robert H. Ressler and Lowell T. Anderson</i>	105
RESPONSE TO A CONDITIONED AVERSIVE EVENT IN MICE AS A FUNCTION OF FREQUENCY OF PREMATING MATERNAL SHOCK.....	
..... <i>Lowell T. Anderson and Robert H. Ressler</i>	113
HYPOTHYROIDISM AND THE MATURATION OF THE HYPOTHALAMO-HYPOPHYSEAL-ADRENAL AXIS.....	
..... <i>Lee A. Meserve and James H. Leatham</i>	123

iv VOLUME CONTENTS 143T700

SENSITIZATION FOR AUDIOGENIC SEIZURES IN TWO STRAINS OF MICE AND THEIR F ₁ HYBRIDS.....	<i>Chia-Shong Chen</i>	131
THE INFLUENCE OF STAGNANT HYPOXIA ON THE ACTIVITY OF SOME DEHYDROGENASES AND AMINOTRANSFERASES IN THE BRAIN OF RATS DURING ONTOGENESIS.....	<i>L. Jilek, V. Janata, A. Londonová, Z. Makoč, S. Trojan, and F. Vorel</i>	139
THE ONTOGENY OF THE ONSET OF DRINKING AND PLASMA OSMOTIC PRESSURE REGULATION.....	<i>C. Robert Almlí</i>	147
THE DEVELOPMENT OF CANNIBALISM IN MALE ROCKLAND-SWISS MICE AND THE INFLUENCE OF OLFATORY BULB REMOVAL.....	<i>Ronald Gandelman</i>	159
TACTILE AND VISUAL SENSE SYSTEM INTERACTIONS: A DEVELOPMENTAL STUDY USING REACTION TIME MODELS.....	<i>Judith Kaufman, Ira Belmont, Herbert G. Birch, and Lillian J. Zach</i>	165
ABSENCE OF BEHAVIORAL DEFICITS FOLLOWING NEONATAL UNDER-NUTRITION IN THE RAT.....	<i>A. Koos Slob, Catherine E. Snow, and Els de Natris-Mathot</i>	177
ANNOUNCEMENT.....		187

Issue Number 3

OBITUARY.....		189
MOTOR BEHAVIORS OF NEONATAL RHESUS MONKEYS: MEASUREMENT TECHNIQUES AND EARLY DEVELOPMENT.....	<i>Rolf Castell and Gene Sackell</i>	191
MATERNAL INFLUENCE ON THE RESPONSE OF WILD AND DOMESTIC NORWAY RATS TO A NOVEL ENVIRONMENT.....	<i>Edward O. Price and Stephen Loomis</i>	203
ACTIVITY STATES IN PREMATURE AND TERM INFANTS.....	<i>Richard Michaelis, Arthur H. Parmelee, Evelyn Stern, and Audrey Haber</i>	209
THE EFFECTS OF LITTER SIZE AND POST-WEANING ISOLATION OR GROUPING ON ADULT EMOTIONALITY IN C3H MICE.....	<i>Robin Priestnall</i>	217
THE EFFECTS OF INFANTILE STIMULATION AND INTERMITTENT FASTING AND FEEDING ON LIFE SPAN IN THE BLACK-HOODED RAT.....	<i>Don C. Kendrick</i>	225
RESPONSES TO ELECTRICAL STIMULATION OF THE MEDIAN NERVE IN THE HUMAN NEWBORN.....	<i>Ron R. Ellis and Robert J. Ellingson</i>	235
REVERSAL LEARNING IN THE NEONATAL RHESUS MONKEY.....	<i>Robert R. Zimmermann</i>	245
SPONTANEOUS AND TESTOSTERONE-INDUCED PUP KILLING IN FEMALE ROCKLAND-SWISS MICE: THE EFFECT OF LACTATION AND THE PRESENCE OF YOUNG.....	<i>Ronald Gandelman and Paula G. Davis</i>	251

VOLUME CONTENTS v

MOTHER-INFANT SEPARATION IN SQUIRREL MONKEYS LIVING IN A GROUP	<i>Byron C. Jones and Dennis L. Clark</i>	259
THE DEVELOPMENT OF Na^+ -DEPENDENT BINDING OF γ -AMINOBUTYRIC ACID TO PARTICLES OF RAT BRAIN	<i>F. V. DeFeudis</i>	271
NEURAL SYSTEMS UNDERLYING CLIMAX MOVEMENTS IN THE DOMESTIC CHICKEN	<i>Walter L. Bakhuis and Michael A. Corner</i>	279
ANNOUNCEMENT		287

Issue Number 4

ONTOGENETIC ASPECTS OF CENTRAL CHOLINERGIC INVOLVEMENT IN SPONTANEOUS ALTERNATION BEHAVIOR	<i>G. J. Egger, P. J. Livesey, and R. G. Dawson</i>	289
TRANSCALLOSAL AND TRANSHIPPOCAMPAL EVOKED POTENTIALS IN DEVELOPING GUINEA PIG BRAIN	<i>P. J. Savarie and M. J. Hosko</i>	301
ONTOGENY OF "ABERRANT" RESPONSES IN THE MATING PATTERN OF MALE GUINEA PIGS	<i>L. V. Harper</i>	311
THE INTERACTION OF GENOTYPE AND EXOGENOUS NEONATAL ANDROGEN AND ESTROGEN: SEX BEHAVIOR IN FEMALE MICE	<i>J. R. Vale, D. Ray, and C. A. Vale</i>	319
STATISTICAL PROCEDURE IN DEVELOPMENTAL STUDIES ON SPECIES WITH MULTIPLE OFFSPRING	<i>H. Abbey and E. Howard</i>	329
ONTOGENESIS OF ELECTROENCEPHALOGRAPHIC SEIZURE PATTERNS IN DEVELOPING CHICK EMBRYOS DURING RECOVERY FROM HYPOTHERMIC HYPOXIA	<i>J. J. Peters, E. J. Hilgefard, and A. R. Vonderahe</i>	337
EFFECTS OF PREWEANING STIMULATION ON THE GABA PRODUCTION IN RAT CORTEX	<i>D. W. Fulker and J. T. Rick</i>	349
SLEEP STATE PERIODICITY IN PREMATURES AND YOUNG INFANTS	<i>E. Stern, A. H. Parmelee, and M. A. Harris</i>	357
BRAIN WEIGHT CHANGES RESULTING FROM ENRICHED REARING CONDITIONS: A DIALLEL ANALYSIS	<i>N. D. Henderson</i>	367
THE DEVELOPMENT OF VISUAL FLICKER RATE PREFERENCE IN THE NEWLY HATCHED CHICK	<i>M. L. Simner</i>	377

Issue Number 5

EFFECT OF ANESTHESIA AND/OR HYPOTHERMIA ON CEREBRAL FREE AMINO ACIDS IN YOUNG RATS	<i>H. S. S. Sarajas and S. S. Oja</i>	385
INFANTILE STIMULATION AND EXPLORATORY BEHAVIOR IN THE RAT	<i>D. I. Williams</i>	393
STRAIGHT-ALLEY ESCAPE BEHAVIOR IN INFANT MICE: EFFECT OF SHOCK INTENSITY	<i>Z. M. Nagy and J. R. Misanin</i>	399
POSTNATAL DEVELOPMENT OF THE ELECTROCORTICAL ACTIVITY IN THE GOLDEN HAMSTER (<i>Mesocricetus auratus</i>)	<i>D. A. Callison, W. A. Himwich, and J. K. Turner</i>	411

vi VOLUME CONTENTS

EFFECTS OF ARTIFICIAL MOTHERS AND VISUAL EXPERIENCE ON ADRENAL RESPONSIVENESS OF INFANT MONKEYS.....	421
.....S. D. Hill, S. A. McCormack, and W. A. Mason	
NOVELTY INDUCED CHANGES IN SPONTANEOUS ALTERNATION BY INFANT AND ADULT RATS.....	431
.....G. J. Egger	
REINSTATEMENT OF EARLY EXPERIENCES AND LATER LEARNING: AN ANIMAL ANALOGUE FOR HUMAN DEVELOPMENT.....	437
.....T. D. Wachs	
MATERNAL VITAMIN A EXCESS DURING THE EARLY FETAL PERIOD: EFFECTS ON LEARNING AND DEVELOPMENT IN THE OFFSPRING...	445
.....D. E. Hutchings, J. Gibbon, and M. A. Kaufman	
THE RELEVANCE OF MEMORY, AROUSAL, AND CUE FACTORS TO DEVELOPMENTAL CHANGES IN SPONTANEOUS ALTERNATION BY RATS.....	459
.....G. J. Egger	
BEHAVIOURAL DEVELOPMENT IN MICE SELECTED FOR DIFFERENCES IN BRAIN WEIGHT.....	469
.....J. E. Fuller and H. D. Geils	
THE EFFECTS OF PREMATURE DELIVERY ON SUBSEQUENT DEVELOPMENT OF THE RAT.....	475
.....L. J. Grola and D. Ambruso	

Issue Number 6

ACKNOWLEDGMENT.....	481
EFFECT OF PRENATAL HEAT STRESS AT MID- AND LATE GESTATION ON THE LEARNING OF MATURE GUINEA-PIGS.....	483
.....J. G. Lyle, K. M. Jonson, M. J. Edwards, and R. H. Penny	
THE EFFECTS OF THE PLACENTA AND FETAL FLUIDS ON THE ACCEPTANCE OF FOSTER YOUNG.....	495
.....L. J. Grola	
THE LONG-TERM DEVELOPMENT OF FIGHTING IN MICE: IMPLICATIONS FOR FUTURE RESEARCH.....	503
.....M. K. Morgret	
NOTE: THE ANALYSIS OF THE EFFECTS OF EARLY EXPERIENCES.....	510
.....E. C. Simmel	
BEHAVIORAL EFFECTS OF EXPERIMENTAL MATERNAL HYPERPHENYLALANINEMIA.....	511
.....R. L. Schalock and J. H. Copenhaver	
INCEPTION OF A 24-HR MEMORY CAPACITY IN TWO MOUSE STRAINS...	521
.....Z. M. Nagy, J. R. Misanin, and B. Wetzel	
ATTACHMENT FORMATION AND SEPARATION IN HETEROSEXUALLY NAIVE PREADULT RHESUS MONKEYS (<i>Macaca mulatta</i>).....	531
.....J. Erwin, E. M. Brandt, and G. Mitchell	
REDUCTION OF MATERNAL NEST BUILDING IN FEMALE MICE BY TESTOSTERONE PROPIONATE TREATMENT.....	539
.....R. Gandelman	
EFFECTS OF EARLY EXPERIENCES ON SHOCK- AND ILLNESS-INDUCED PASSIVE AVOIDANCE BEHAVIOR.....	547
.....R. Ader	
A FURTHER ANALYSIS OF THE RESPONSIVENESS OF EXPERIENCED AND INEXPERIENCED RING DOVE (<i>Streptopelia risoria</i>) FOSTER PARENTS TO SQUABS.....	557
.....E. W. Hansen

Information for Contributors

DEVELOPMENTAL PSYCHOBIOLOGY will promptly publish papers dealing with physiological, behavioral, or genetic studies of the developing organism. These may include research reports, theoretical treatises, notes on apparatus or methodology, and monograph supplements. In addition, the Journal will carry letters to the editors, announcements of general interest to our readers, and book notices.

Materials should be sent directly to the Editor-in-Chief, Dr. Gilbert W. Meier, Meyer Children's Rehabilitation Institute, University of Nebraska Medical Center, 444 South 44th Street, Omaha, Nebraska 68131, U.S.A., or your nearest Regional Editor. Publication is anticipated in six months or less after acceptance. Papers must not be submitted simultaneously to, or have been previously published in another journal except as an abstract or brief, preliminary report.

Authors should follow a clear, concise style. Articles should be typewritten on one side of 8½ x 11 inch (22 x 28 cm) paper of good quality, double-spaced throughout, have a wide margin all around, and be submitted in three copies (ribbon plus first two carbon copies) complete with tables and illustrations. All pages should be numbered serially beginning with the title page.

Research reports should be subdivided into the following sections: *Synopsis* (no heading required), *Introduction* (no heading required), *Method*, *Results*, *Discussion*, *Notes* (if applicable), *References*.

Language: English will be the language of publication.

Title: The title should be typed on page 1 of the manuscript together with author(s); laboratory or department and institution of origin; city, state, country; complete address for receiving proofs and reprint requests. Names of authors should be positioned vertically and grouped to avoid repeating an affiliation. If desired, additional affiliations or present addresses of authors may be stated in the *Notes* section. A short, running title of not more than 50 characters (including spaces) suitable for alternate page headings should be typed on page 2 of the manuscript, if the full title exceeds this limitation.

Synopsis: The synopsis should adequately summarize the paper in no more than 150 words and be typed on page 3 with a list of up to 12 words or phrases suitable for indexing purposes.

Notes: This section will include all material that otherwise would appear as footnotes, with the exception of the date the manuscript is received at the editorial office and table footnotes. *Notes* should be typed

on a separate page following the *Discussion* section. If they relate to the title or the authors, *Notes* should not have superscripts. Text footnotes should be numbered consecutively throughout the paper with superscripts in Arabic numerals. Table footnotes should be lettered consecutively within each table with superscripts in lower case Roman.

References: Authors cited in the text should be indicated by family name followed by year of publication (e.g., Hilton, 1967). When a reference has more than two authors, all the names should be used in the first citation, and on subsequent citation thus: (Hilton *et al.*, 1967). Where more than one paper by the same author(s) have appeared in one year, the convention will be: (Hilton, 1967a,b). Journal title abbreviations listed in *Index Medicus* should be used.

Form for journal reference: Alexander, G. J., Miles, B. E., Gold, G. M., and Alexander, Rita B. (1967). LSD: Injection early in pregnancy produces abnormalities in offspring of rats. *Science*, 157:459-460.

Form for chapter reference: Meier, G. W. (1968). In search of the engram: In the nursery. In G. Newton and S. Levine (Eds.), *Early Experience and Behavior*. Springfield: Thomas. Pp. 338-364.

Units of Measurement and Symbols: Examples: 5 µg 2 g 9 ml 8% [†]I. Units of measurement are abbreviated and unpunctuated when used with numerals.

Illustrations: These should be identified on the back lightly in pencil with number and author's name, indicating "top." Prints of figures should be sharp, clear, and glossy. Half-tones should be glossy, strongly contrasted prints. Captions should be typed on a separate sheet at the end of the manuscript. Indicate approximate point of insertion in the text.

Magnification of photomicrographs should be stated together with dimensional scale.

Tables: Each table should be typed on a separate sheet, indicating approximate point of insertion in the text.

Proofs: Printer's errors should be indicated marginally on the proofs. Other changes on the proofs may be charged to the author.

Reprints: The author will receive with his galley proofs a reprint order form which must be completed and returned with the proofs. Senior authors will receive 50 reprints of their articles without charge.
